

## Technical Manager for Drone Shows

### full-time

Verity Studios delivers ground-breaking drone shows systems that are purpose-built for the live entertainment and events industry. The unique performance capabilities of show drones provide a stunning complement to the traditional palette of light, sound, stage effects, and human performance. We are excited about using technology to transform live entertainment and other industries, and we are growing our team.

As Verity Studios' drones come to stages worldwide and production volumes rise, we are seeking to complement our team with an experienced technical manager, who will assist customers in bringing drone show systems to their venues. The successful candidate will interface with customers and will be responsible for the technical planning and execution of drone show productions. This position will require frequent travel to customers' sites.

#### Your tasks

- Interface with customers for all technical aspects of drone shows, from conception and planning to installation and day-to-day operation
- Plan, install, verify, operate, and maintain the drone show systems
- Support and train drone show system operators and installation crews, on site and remotely
- Configure and test drone show systems in house prior to new releases
- Provide issue reports and feature wishlists to the development team, based on customer interactions and on-site observations
- Contribute to and review user support documentation such as user manuals, operational guidelines
- Create safety assessments; determine relevant legislation and obtain relevant certifications/permits

#### Benefits

- Deliver ground-breaking technology to some of the world's most prominent stage productions
- Travel internationally to event locations
- Work in an interdisciplinary, international team of highly skilled people

#### Prerequisites

- Structured, detail-oriented, and proactive work style
- Experience in the live entertainment industry
- Experience in the installation and operation of stage equipment
- Very good written and spoken English
- Excellent team and communication skills
- Willingness to travel

#### How to apply

As part of your application package please include:

- Resume/CV
- Portfolio of relevant projects or degrees
- Preferably 2 reference letters, or the contact details of 2 references
