

Manufacturing / Quality Technician

Verity Studios delivers ground-breaking drone show systems that are purpose-built for the live entertainment and events industry. The unique performance capabilities of show drones provide a stunning complement to the traditional palette of light, sound, stage effects, and human performance. We are excited about using technology to transform live entertainment and other industries, and we are growing our team.

Your tasks

- Assembling, maintaining, and repairing flying machines and support equipment
- Establish, perform and maintain quality control procedures for parts and new products
- Inventory management and organization
- Documenting test results and encountered issues
- Performing test procedures, validation of assemblies and electrical/mechanical components and diagnosing issues

Benefits

- Work in an interdisciplinary, international team of highly skilled people
- Deliver ground-breaking technology to some of the world's most prominent stage productions
- Travel internationally to event locations
- Shape the culture and have a significant impact in a rapidly growing young company

Prerequisites

- Completed apprenticeship in automation, manufacturing, electronics technician or a related field.
- Experience in hand soldering
- Experience with sourcing parts and working with suppliers is a plus
- Experience with quality control procedures and implementation
- Fluency in English and German

How to apply

As part of your application package please include:

- Cover letter
- Resume/CV
- 2 reference letters, or the contact details of 2 references
